

December 19, 2020

Dear Family Members,

With just one week to go until the celebration of Our Lord's birth we want to take this opportunity to wish you a very blessed and Merry Christmas! May the New Year bring good health and an end to the pandemic and allow us to again get back to some normalcy!

By now you have received all of the vaccine information passed on to us from the CDC and Health Department. They have made a very concerted effort to inform us of all the aspects of the vaccine so that some of the misconceptions and misunderstanding would be clarified and the public would better understand the vital importance of receiving it. We will continue to keep you informed and updated on the latest information we receive.

The distribution of the vaccine is around the corner. We are in the process of working with CVS to provide all the necessary information so that they can begin giving our Residents and staff the vaccine on December 23<sup>rd</sup>. They are scheduled for several visits – including one in January and one in February.

We will continue to keep you updated going forward. As always we are routinely testing staff and Sisters weekly with no new cases. We thank God everyday for HIS protection and continue to confide the health and safety of our Residents and staff to HIM.

This last week before Christmas will certainly bring the excitement and busyness of the holiday, even though we must celebrate it in a very different way. Have a wonderful weekend and stay safe!

Sincerely,

Sr. Gertrude Mary lsp
