

Dear Family Members,

By means of an update, one of the nurses that has been furloughed since December 30<sup>th</sup> due to being exposed to someone who was COVID-19 +, tested positive yesterday and will be furloughed at least until January 21<sup>st</sup> now.

All the Residents were tested once again for COVID-19 Wednesday, as per requirement. All are asymptomatic and we expect to receive their results tomorrow late evening.

If no one else is positive, we should be able to stop their contact and droplet precautions by next Tuesday.

Keep up the prayers.

Sr Gertrude Mary, I.s.p.
