

March 27,2021

Dear Family Members,

Our last letter informed you of the need to quarantine one unit due to a Resident testing positive after a hospital stay. We are presently in quarantine on the St. Francis side until April 6, 2021. Quarantine will be lifted after that date if all Residents test negative.

The latest directives received from the Dept. of Health brought some potentially good news. Since there were no positive cases on the St. Clare side, we may be allowed to resume family visits if all Residents test negative on Monday. We are also in the process of revising our policies.

We continue to test all staff and Little Sisters bi-weekly and everyone has tested negative. We will be entering Holy Week and celebrating the beautiful feast of Easter on Sunday. Although the Residents continue to be deprived of coming to the chapel they will be able to celebrate with us on T.V.

On another note, the baseball season begins soon and we are looking for help to sponsor the sports channel monthly. If anyone is interested in sponsoring one month please contact Sister Raymond.

We are very grateful for the continued support of all our friends. It has helped us get through these hard times and we look forward to the day we will be able to welcome you again into our home. In the meantime please be assured of our continued grateful prayers. Have a wonderful weekend!

Sincerely,

Sr. Gertrude Mary lsp
