

Dear Family Members,

We are happy to report that all staff and Sisters tested negative again this past week. We're also happy to announce a recent change in regulations. Testing twice a week serial testing for all vaccinated staff has been eliminated. But all unvaccinated staff will have to continue to be tested bi-weekly according to the most recent instructions received from the Department of Health. Most of the Residents are now enjoying communal dining while respecting social distancing and Melanie continues to work hard to meaningfully engage the Residents in activities.

We were happy to welcome a new Sister to our community on June 8th. Sister MaryJo joined us from the Novitiate community and is happy to again be with the elderly.

That's about all the news for now. Have a great weekend.

Sincerely,

Sr. Gertrude Mary
