

Jeanne Jugan Residence
2999 Schurz Ave
Bronx, NY 10465

September 25, 2021

Dear Family Members,

As the door opens to the season of changing colors, we are happy to announce that we have had no cases of the virus this week. The drop in the temperature and the changing leaves surrounding 2999 Schurz Avenue remind us that summer is over and we will soon see a magnificent array of beauty.

The Residents continue to enjoy afternoons on the patio, weather permitting, and Melanie keeps them busy with their favorite games. Our pavilion in the backyard/ visitation area should be constructed this week. It took the company a very long time to obtain the lumber. We are hoping to have a much larger shaded outdoor visitation area once this has been completed.

The City of New York has offered to provide the booster vaccine to the residents and staff members most likely during the week of October 11th. We will keep you posted. Have a wonderful weekend.

Sincerely,

Sr. Gertrude Mary
