

May 10, 2022

Dear Family Members,

Unfortunately, one of our staff members tested positive this morning for COVID-19. We're happy to be able to tell you though that this person has not exposed any of the Residents who continue to do well. Most of them received the Booster yesterday with no side effects and are again well protected from the virus as well as our staff members and sisters. We continue to respect all state and federal guidelines with regard to the virus and continue to do our utmost to protect the Residents.

Sincerely,

Sr. Gertrude Mary lsp
